On Sep 2, 2021 I took @danielkmak's word for it and deployed another, different, contract and redid both tasks 2. & 11.

Initially 11 days prior on Aug 22, I correctly deployed SimpleStorage so I shall include that screenshot and those details too.

I'll have to write that hash and that contract address digit by digit because I cannot copy/paste them; hopefully I won't make any mistakes. 😊
